

## Pro60 Serie

### Technical Specifications

- 60 mm profile width,
- Large chamber and 2 seals, provides an excellent heat, sound and water insulation.
- Unique support sheet and automatic TPV gray seals all yield lower inventory cost and speedy manufacturing.
- Single layer (4-6 mm) or heat insulating glass (20-24-32 mm) at different thickness may be applied with gray seals.
- Furthermore, 3 layered glasses and blind glasses, with shutter (equipped with motor or motorless) or without shutter.
