

## Pro70 Serie

### Technical Specifications

- 70 mm profile width,
- 5 large chamber and 2 seals, provides an excellent heat, sound and water insulation.
- Unique support sheet and automatic TPV gray seals all yield lower inventory costs and speedy manufacturing.
- Single layer (4-6 mm) or heat insulating glass (20-24-32-36 mm) at different thickness may be applied with gray seals.
- Furthermore, 3 layered glasses and blind glasses, with shutter (equipped with motor or moterless) or without shutter.
